Professional Summary

Frontend Developer with over 3 years of experience building modern, responsive, and user-friendly websites and web applications. Specialized in React.js, Tailwind CSS, and performance-optimized UIs. Proven ability to deliver full-cycle freelance projects, including landing pages, corporate websites, and custom web systems. Comfortable collaborating in agile teams and integrating backend technologies.

Technical Skills

Languages: JavaScript (ES6+), HTML5, CSS3, PHP, SQL

Frontend: React.js, Next.js, Tailwind CSS, Bootstrap

Backend: CodeIgniter, Java (Spring Boot)

Tools & Others: Git, GitHub, MySQL Workbench, Responsive Design

Projects & Experience

Freelance Frontend Developer
March 2021 – Present | Remote | Self-employed
• **Landing Page – American Windows (2021):** Developed a responsive landing page using HTML, CSS, and vanilla JavaScript. Improved client leads with optimized layout and mobile responsiveness.
• **Corporate Website – Seguricar (2022):** Designed and built a full corporate website using HTML, Bootstrap, and JavaScript. Delivered SEO-friendly design and interactive features for company services.
• **Inventory & Sales Web System (2023):** Developed a complete web-based inventory and sales management system for an aluminum and glass import business. Stack: PHP with CodeIgniter, JavaScript, Bootstrap, MySQL (WorkBench). Automated sales workflows and reduced manual reporting errors.

• **Group Collaboration Project (2024):** Participated in a collaborative project using Java (Spring Boot), React with Next.js, and Tailwind CSS. Focused on frontend integration, component optimization, and responsive UI design.
